

# Feedback for our Website

Some time ago we received a mail which went to every organization which runs Tor servers. In this mail we received feedback for our website. Let me quote the mail for you:

<sxh text;> www.enn.lu ——— + language ~ finding the donation information: The link in the menu is called 'Support' which I understand as 'get support' not 'give support', maybe renaming it simply to 'Donate' would make it easier to find the information. - HTTPS available including proper certificate: no (invalid cert) + relay information available (at least relay names/fingerprints) - donations are published: no </sxh>

Now we worked on this. Just a day before the mail we created a page on this very wiki that states every donation we received so far. But we went a bit further and redesigned the hole "Donation" page. This means that we renamed "Support" to "Donate" as you can see on the mainpage. We created a submenu for every way of donating and we linked our received donations. Current supported ways of donating are:

- direct wire transfer
- wire transfer through a proxy (the Chaos Computer Club Luxembourg)
- Bitcoin
- Snailmail
- Paypal
- flattr

The only remaining negative point was the missing SSL cert. Well we see this hole snakeoil stuff a bit different but we created one cert signed by our self.

We thank the sender for his feedback and would be glad to receive some more from you guys.

Greetings

From: <http://wiki.enn.lu/> - **Frënn vun der Ënn A.S.B.L.**
